

Finota CAPABILITY STATEMENT

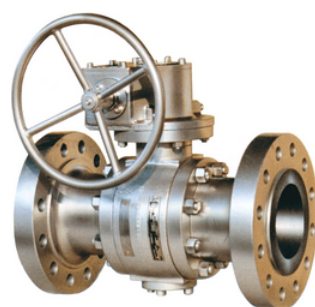

ABOUT US

At Finota, we are dedicated to helping Federal entities maximize their capabilities. Our team of highly qualified and experienced professionals work with Federal organizations to analyze their information technology requirements and develop solutions that meet their needs. We specialize in developing custom solutions that are designed to reduce cost and maximize efficiency. We provide both on-site and remote services to ensure that our clients have access to the solution that they require. Our goal is to develop the most effective solutions that are tailored to meet the needs of each of our Federal clients. We partner with top-tier vendors to provide the best solutions available and we work hard to ensure that our clients always have the highest quality service. Our customers can trust that they will have the best possible experience working with us.

OUR SERVICES

- Oil and Gas Procurement
- Logistics & Haulage
